Used with the Robus Connect App and other Connect devices, these attractive modern looking cameras with integrated Wi-Fi, monitor, notify and record movements in the sensing area onto SD card. Available in IP20 and IP65 ratings for Indoor and Outdoor applications they add an additional layer of security to your home for peace of mind

INDOOR

OUTDOOR

Applications:

- Internal or External areas of:
  - The home
  - Shops
  - Pubs
  - Restaurants
  - Hotels

Construction:

All polycarbonate body
Aluminium/FR4 Composite PCB

Features and Benefits:

- Available in IP20 and IP65 for indoor or outdoor applications
- These cameras are Wi-Fi enabled so controlled from the same Robus Connect App as all Connect products
- Pan and tilt the camera from your mobile to view the surrounding area of your property for added security
- When movement is detected in the sensing area:
  - A Notification is sent to your mobile phone so you can decide what action to take
  - Automatically record
  - The notification can be used as a trigger to turn on lighting, set a scene or automation
- The cameras have automatic night vision to ensure high quality photographs and video in poor light conditions
- They also have two way audio functionality to communicate with a visitor outside, or family member inside
- You can take a photograph using your phone from a remote location
- The indoor camera has a slot for SD card up to128GB to provide up to 2 weeks recording time
- Outdoor camera has built in SD card for up to 3 days recording to ensure IP rating is not compromised
- All video is recorded in 1080P for high resolution play back and recognition of people
- The app has an album to save photos and recordings
- Both cameras have optional cloud storage for extended saved recording capacity
- Indoor camera comes complete with USB cable for use with your own USB adapter
- Outdoor camera includes a 12v power supply with connection cables
