

WALL SWITCH TIMER

Simply replaces a standard wall switch to provide timed switching of lights while still allowing normal switching operation. The hinged cover also allows operation as light switch.

- Replaces the existing light switch - either 1 way or 2 way circuit
- Daily/weekly/weekday/ weekend programme available
- Will operate as a manual switch
- 1 Year Warranty

T40S-C

Please Note:

NOT suitable for use with LED lighting, fluorescent strip lamps. CFL low energy lamps less than 17W. Low voltage lighting or dimmer switches when used in a two way lighting circuit.
