Product code	Wattage	Lumens	Solar Charging Time	Maximum run time Full power	Maximum run time 15% power
JC17069	2W	200	6-8hrs	2.5-3 hrs	≤30hrs

Fig.1.c

Prior to use, ensure that the product is fully charged

Fig.1.

Remove mounting plate from the Solar light as illustrated in Fig.1.

Select a suitable flat and stable location, use the mounting plate as a template and drill holes suitable for fixings(supplied) (fig.1.a.). Ensure that the "O" ring is between the washer and the mounting plate when securing.

Refit the Solar light to the mounting bracket(Fig.1.b)

Fig.1.a.

1. Once installed, turn on by pressing the Touch Button for 3 seconds, the blue light will come on, allow the batteries to charge for 6-8hrs in full of sunlight.

2. When the light level is less the 20 Lux the light will come on and dim to 15%, as soon as the sensor detects movement it will increase to full power. see above(Fig.1.c) for detection area.

General Maintenance Requirements

JCC Lighting Products recommends that the this product is cleaned with warm water and dried with a chamois leather or absorbent dry cloth. Weathering, environmental pollution and bird droppings should be cleaned off with a non-abrasive cleaner. This is to ensure that the solar panel is fully effective in charging the batteries, and to preserve the finish of this product.

You can help protect the environment. Please remember to respect the local regulations: hand in the non-working electrical equipment to an appropriate waste disposal centre. The packaging material is recyclable. Dispose of the packaging in an environmentally friendly manner and make it available for the recyclable material collection service.
